

Knowing What to Look for: Urinary Tract Infections

What Is a Urinary Tract Infection (UTI)?

- A urinary tract infection makes you sick.
- You have a UTI when bad germs get inside of you.
- These germs make it hard to pee and you may feel pain.

Tell the person who helps you if

- It burns when you go to the bathroom.

Tell the person who helps you if

helps you if

- It feels like you have to pee again after you pee.

Tell the person who helps you if

- You are really sleepy and tired all the time.

Tell the person who helps you if

- Your pee is dark and smelly.

Tell the person who helps you if

- You have a pain below your belly button.

Tell the person who helps you if

- You have a pain in your lower back.

Tell the person who helps you if

- You are really hot or cold.

Tell the person who helps you if

- You are throwing up.

If you feel any of these things

- Go see your doctor!
- Your doctor will tell you what to do to feel better.
